

Funding Opportunities December 2012

Foundation Funding Opportunities

It's the last month of 2012 and time to make those end-of-the-year requests for funding. Here are some foundations which have shown their commitment to San Bernardino County by providing to many organization. If you have developed a relationship with any of them and your organization's mission is in alignment with their priorities, you may want to consider an appeal for funding.

WEINGART FOUNDATION

Grants are available for the following:

- Core Program Funding
- Capital Funds
- Capacity Building Funds
- Program Funds
- Project Funds
- General Operating Funds

The foundation provides funding in the following areas:

- Children & Youth
- Low Income Families
- Community Development
- Disabilities & Homelessness
- Underserved Populations
- Health
- Human Services
- Education
- Development Disabilities
- Gang Prevention & Intervention

Support is provided geographically as follows: California (Los Angeles; Orange; Riverside; Santa Barbara; San Bernardino; Ventura; San Diego)

Contact information: 1055 W 7TH ST STE 3050

Los Angeles, CA 90017

Tel: (213) 688-7799

Fax: (213) 688-1515

Deadline: December 14th, 2012 for Ongoing Small Grants Programs (all requests of \$25,000 or less)

Maximum Grant: N/A

Grant Link: <http://www.weingartfnd.org>

LUNGeVity Foundation Releases Requests for Applications for Translational Lung Cancer Research Awards

The LUNGeVity Foundation has issued Requests for Applications for three awards in translational lung cancer research. Applications are invited for Career Development Awards, Early Detection Awards, and Targeted Therapeutics Awards.

1. The Career Development Awards for Translational Research program was created to support future leaders who will keep the field of lung cancer research vibrant with new ideas. Applicants must be within the first five years of their faculty appointment. Projects that will be funded are expected to have a direct impact on the early detection of lung cancer or on the outcomes of lung cancer, or to provide a clear conceptual or experimental foundation for the future development of methods for early detection and/or individualized treatment.
2. The Early Detection Awards program is intended to support research projects directed at new approaches designed to improve clinical methods for the detection of primary tumors. Projects are expected to have a direct impact on the early detection of lung cancer or a clear conceptual or experimental foundation for the future development of methods for early detection. The preference is for studies that are likely to result in

patient benefit in the foreseeable future. Applicants may apply as individuals or in teams of up to three investigators. It is strongly encouraged that teams be composed of principal investigators from different institutions.

3. The Targeted Therapeutics Awards program will support research directed at the discovery and validation of biomarkers or novel targeted therapeutics that will make a difference in the clinical treatment and survival of patients. Applicants may apply as individuals or in teams of up to three investigators. It is strongly encouraged that teams be composed of principal investigators from different institutions.

For all awards, an applicant/awardee must be employed by a United States institution at the time of submission of the LOI and throughout the duration of the award.

Deadline: December 17, 2012 (Letters of Intent)

Maximum Grant: Career Development Awards-Successful applicants will receive \$100,000 per year for a possible period of three years, and will participate as non-voting members of LUNgevity's Scientific Advisory Board for the duration of the award; Early Detection Awards may be for a maximum of \$600,000 (an annual maximum of \$100,000 a year for two years for up to three principal investigators); and Targeted Therapeutic Awards may be for a maximum of \$600,000 (an annual maximum of \$100,000 a year for two years for up to three principal investigators)

W M KECK FOUNDATION -

Grants are available for the following:

Building Funds

- Capital Funding
- Fellowships
- Program Funding
- Research Funding
- Institution Support

The foundation provides funding in the following areas:

- Arts & Culture
- Undergraduate Education
- Community Development
- Health
- Medical Research
- Research
- Science & Engineering
- Southern California
- Children & Youth

Contact information:

550 S Hope Street Ste. 2500

Los Angeles , California 90071

Tel: (213) 680-3833

Fax: (213) 614-0934

Email: info@wmkeck.org

Deadline: Pre-Application Counseling: January 1 to February 15 or June 1 to August 15

Phase I Application Deadline: May 1 and November 1 by 4:30pm (PT)

Phase II Application by Invitation only

Full Proposal Deadline: August 23 and February 15 by 4:30pm (PT)

Maximum Grant: N/A

Grant Link: <http://www.wmkeck.org>

ROBERT R MCCORMICK TRIBUNE FOUNDATION

Grants are available for the following:

- Building Funds
- Conferences & Seminars
- Continuing Support
- General Operating Funds

- Program Funding
- Program Evaluation
- Program Specific Funding
- Research Funding
- Seed Funding
- Technical Support
- Endowment Funds
- Capital Campaigns

The foundation provides funding in the following areas:

- Communities
- Education
- Journalism
- Citizenship
- Health & Social Service Institutions
- Veterans
- Cultural
- Children & Youth

Contact information:

205 N MICHIGAN AVENUE SUITE 4300

CHICAGO, Illinois 60601

Tel: (312) 445-5000

Email: asmith@McCormickFoundation.org

Deadline:

CIVICS PROGRAM - For under \$50,000: Letters of Inquiries are accepted on a rolling basis

For requests over \$50,000: December 1

EDUCATION PROGRAM - January 2nd prior to May Board meeting. The Education Program proposals are by invitation only.

JOURNALISM PROGRAM (More than \$50,000) - May 1; (\$50,000 or less) - Rolling basis and reviewed in February, July and November

Maximum Grant: N/A

Grant Link: <http://www.mccormickfoundation.org/>

KAISER PERMANENTE FONTANA AND ONTARIO MEDICAL CENTERS

Kaiser Permanente Fontana and Ontario Medical Centers are pleased to release the Letter of Inquiry for 2013-2014 as part of the Community Benefit Grant Program. They welcome inquiries from nonprofit organizations, educational institutions, and government-sponsored projects whose work is in alignment with our key funding priorities.

Need I: Increase Access to Health Insurance Coverage and Health Care Services Service

Programs that:

- Provide primary care, dental, basic outpatient counseling
- Focus on the prevention, detection, education, self-care management of health conditions for one or more of the following: hypertension, diabetes, asthma, breast cancer, cervical cancer, and/or colorectal cancer.

Need II: Reduce and Prevent Obesity and Overweight

Programs that:

- Increase healthy eating and active living

Need III: Improve Social Determinants of Health

Programs that:

- Address food security,
- Provide basic needs (e.g., hygiene items, food, assistance to prevent homelessness), and/or
- Enhance job skills development

Please review the eligibility guidelines carefully to assess the potential fit between your organization's goals and objectives and Kaiser Permanente's funding priorities before submitting a grant inquiry. The Letter of Inquiry process is now available online. The online grant inquiry form includes details about the online submission process, and you can find more information in the Frequently Asked Questions.

Deadline: Grant inquiries must be submitted on or before 4:00 p.m. on Monday, January 7, 2013

Maximum Grant: A grant inquiry can be submitted for any amount ranging from a minimum of \$5,000 to a maximum of \$25,000

Grant Link: <http://community.kp.org/fontana>

Robert Wood Johnson Foundation New Careers in Nursing Program

The initiative is designed to help alleviate the nursing shortage in the United States and increase the diversity of nursing professionals. Through grants to schools of nursing, the program will provide scholarships to college graduates without nursing degrees who are enrolled in accelerated baccalaureate and master's nursing programs. The program has a two-fold purpose: to increase the numbers of nurses and to address diversity among nursing professionals. Given the need to increase the numbers of nurses, successful applicant organizations must demonstrate that additional resources will be used to leverage internal and external resources to expand or increase diversity in their professional nursing programs. Applications should address the applicant organization's past achievements and future plans to recruit and retain a diverse student body. A school of nursing may apply for between five and thirty scholarships per year, to be awarded to students from underrepresented groups in nursing or who are economically disadvantaged. Preference will be given to schools able to demonstrate that the availability of scholarship funds will expand enrollment in accelerated nursing programs. To be eligible, applicant institutions must offer an entry-level accelerated baccalaureate nursing program or master's nursing program for non-nursing college graduates and be accredited by a nursing accrediting agency recognized by the U.S. Department of Education.

Deadline: January 9, 2013

Maximum Grant: \$10,000

Grant Link: <http://www.rwjf.org/en/about-rwjf/program-areas/pioneer.html>

National Forest Foundation Accepting Applications for 2013 Matching Awards Program

The NFF Matching Awards Program provides matching funds for direct on-the-ground and citizen-based monitoring projects benefiting America's national forests and grasslands.

NFF is interested in action-oriented projects that enhance the viability of natural resources while benefiting and directly engaging surrounding communities. MAP funds can be used to support conservation and restoration projects in the areas of wildlife habitat improvement, recreation, watershed health and restoration, and community-based forestry. In addition to focusing on one or more of these four areas of stewardship, the foundation requires projects to show a strong commitment to civic engagement and community involvement through the direct involvement of the public in on-the-ground conservation, restoration, and monitoring projects. NFF will consider applications from non-federal partners, community-based organizations, Native American tribes, and 501(c)(3) nonprofits implementing action-oriented on-the-ground conservation and citizen-based monitoring projects on or around national forests or grasslands. Projects must be completed within one year. MAP funding is available to support specific conservation and restoration projects and does not provide general programmatic support. MAP projects are selected for funding through a two-stage process. Applicants must first complete the online pre-screening questionnaire. Those that successfully complete the questionnaire will be invited to submit a proposal. For the 2013 program, the proposal deadline is January 9, 2013, for round one, and July 17, 2013, for round two.

Deadline: January 9, 2013, and July 17, 2013

Maximum Grant: Past award amounts have ranged from \$500 to over \$100,000, with a mean of \$30,000 and a median of \$25,000. All MAP awards require at least a 1:1 cash match of non-federal funds

Grant Link: <http://www.nationalforests.org/consERVE/grantprograms/ontheground/map>

Doris Duke Charitable Foundation Announces International Clinical Research Fellowship Program for Medical Students

A program of the Doris Duke Charitable Foundation, the International Clinical Research Fellowship program provides support for United States-based medical students to take a year out from school to conduct mentored clinical research in developing countries. The ICRF program is designed to give medical students an outstanding clinical research experience in global health while they are in the midst of developing their medical proficiency. The long-term goal of the program is to develop the next generation of clinical investigators working in global health. Students participating in the program will take a year out from medical school to conduct clinical research abroad under the direction of a mentor working in global health and complete related coursework. Applicants must be medical students who are in good standing and currently enrolled at an accredited U.S. medical or osteopathic school. Applicants in M.D./Ph.D. programs are eligible. Most students participate after completing their third year

of medical school training. Fourth-year students are eligible to apply but must defer graduation before participation. The program is administered through six U.S. medical schools with established programs in global health research. Each school is responsible for overseeing the selection of applicants and providing the mentored research experience. Each institution will offer three fellowships a year beginning in 2013.

Deadline: January 15, 2013

Maximum Grant: Fellows receive a stipend, health insurance, and financial support to attend a year-end meeting as well as supplementary funds for research and training

Grant Link: <http://www.ddcf.org/Programs/Medical-Research/Goals-and-Strategies/Build-the-Clinical-Research-Career-Ladder/Clinical-Research-Fellowships-for-Medical-Students/International-Clinical-Research-Fellowship/>

New National Competition Launches to Reduce Affordable Housing Costs Through Innovation

To recognize and support the creation of innovative affordable housing developments, Deutsche Bank and Enterprise Community Partners, Inc. are launching the Lowering the Cost of Housing Competition, which will award up to \$250,000 in program-related investments to the winning proposal. Deutsche Bank Americas Foundation also is providing an additional \$50,000 in grant funds to be awarded to proposals that show innovation in practice or industry understanding of cost-lowering measures. A Center for Design, Research, and Real Estate at Syracuse University School of Architecture is coordinating the national competition. The competition is seeking submissions from multidisciplinary teams working to create multifamily affordable housing projects that improve neighborhoods and reduce traditional developmental and building costs. Lowering the Cost seeks to provide a new model for conceiving, siting, financing, building, and sustaining affordable housing. Selected teams will work on a specific site, proposing designs for multi-unit dwellings that present new methods for designing, building, and financing housing for individuals or families below 100 percent of area median income. Submissions should propose new and innovative approaches to affordable housing design while addressing statutory limitations, including current zoning and building code regulations. Proposals that work with their jurisdictions to investigate methods for clearing impediments to lowering the cost of housing will be scored highly. Applications from teams comprised of architects, developers, and policy professionals are strongly encouraged, and entrants are further encouraged to develop creative collaborations that include policy makers, planners, social service providers, academic departments, and research institutes. Submissions must be projects that can be completed on or before December 2014.

Deadline: January 15, 2013

Maximum Grant: \$250,000 in program-related investments; additional \$50,000 in grant funds

Grant Link: <http://loweringcost.com/>

Nominations Invited From Around the World for Charles Bronfman Prize Honoring Young Jewish Humanitarians

The Charles Bronfman Prize annually recognizes Jewish humanitarians whose work, while inspired by personal Jewish values, is of universal benefit to all people. The award program seeks to honor next-generation leaders, under the age of 50, who have a vision for change that will better the world in a meaningful way, and who have created a mechanism for acting on that vision in ways that deliver measurable results. The prize is designed to bring public recognition to young, dynamic individuals, or group of individuals, whose Jewish values infuse their humanitarian accomplishments and provide inspiration to future generations. The prize recipient(s) will join a cohort of recipients who exhibit leadership, innovation, and impact.

The prize accepts nominations from around the world in all areas of humanitarian endeavor across a broad spectrum of disciplines, including but not limited to medicine and science, education, human rights, conflict resolution, community development, and compassionate care. Past recipients represent a range of endeavors and accomplishments in the fields of genetics, the environment, medical education, humanitarian relief, the transformation of public education, and human rights. Nominees should be individuals or teams (not organizations). While nominees must self-identify as Jewish, their endeavors may be universal, contributing to the betterment of the world at large. Nominators are encouraged to collaborate with their nominee to present a strong, well-informed nomination. Self-nominations are not accepted.

Deadline: January 15, 2013

Maximum Grant: The prize recipient(s) will receive an award of \$100,000

Grant Link: <http://www.thecharlesbronfmanprize.com/nomination-process>

Foundational Questions Institute Announces International Request for Proposals on Physics of Information

The current RFP targets research regarding the physics of information both in physics and also in related fields, including cosmology, astrophysics, mathematics, computer science, complex systems, biology, and neuroscience that are unlikely to be supported by conventional funding sources. Funded research will address the gap between research and technological progress on information science on one side and active study of the true physical nature of information on the other. It will also bring the research community together to focus on developing a common understanding of the different types of information and the roles they play. Most importantly, the research supported by the program should have significant implications for our understanding of the major questions across many scientific disciplines and address the deep or "ultimate" nature of reality. Researchers and outreach specialists working in academic and other nonprofit institutions are eligible to apply. Applications are welcome from any country. Proposals must be in English.

Deadline: January 16, 2013 (Initial Proposals)

Maximum Grant: In the 2013 competition, grants totaling approximately \$3 million will be available for projects of up to two years

Grant Link: <http://fqxi.org/grants/large/initial>

American Pain Society Accepting Applications for Rita Allen Award in Pain

Proposed research projects should be directed toward the molecular biology of pain and/or basic science topics related to the development of new analgesics for the management of pain due to terminal illness. Eligible candidates will have completed their training and be able to provide persuasive evidence of distinguished achievement or extraordinary promise in basic science research in pain. Candidates should be in the early stages of their career with an appointment at faculty level. To be eligible, the applicant must demonstrate the strong support of the appropriate administrators and department chair or institute head; should have been on a tenure track for no more than three years (support will be reconsidered if a Rita Allen Foundation Scholar is awarded tenure); and must conduct the research at an institution in the United States or Canada.

Deadline: January 17, 2013

Maximum Grant: The program will award two grants in the amount of \$50,000 a year, for a period of up to three years. The entire award is to be allocated to projects specifically chosen by the recipient. Institutional overhead is not supported. Eligible grant expenses may include the principal investigator's salary

Grant Link: http://www.ampainsoc.org/awards/rita_allen.htm

American Federation for Aging Research Invites Applications for Medical Student Training in Geriatric Research

This program is designed to provide medical students with an enriching experience in aging-related research and geriatrics under the mentorship of top experts in the field. The program introduces students, early in their training, to research academic experiences they might not otherwise have during medical school. Positive experiences in the MSTAR program have led many physicians-in-training to pursue academic careers in aging, ranging from basic science to clinical research to health services research. Students participate in an eight- to twelve-week structured research, clinical, and didactic program in geriatrics appropriate to their level of training and interests. Research projects are offered in basic, translational, clinical, or health services research relevant to older people. Most scholars will do their training and research during the summer months. Any allopathic or osteopathic medical student in good standing who will have successfully completed one year of medical school at a United States institution by June 2013 is eligible. Applicants must be citizens or non-citizen nationals of the United States, or must have been lawfully admitted for permanent residence. Individuals on temporary or student visas are not eligible.

Deadline: January 31, 2013

Maximum Grant: Applicants will compete for up to one hundred and thirty scholarships

The stipend level is approximately \$1,748 per month; actual amounts will vary based on the specific appointment period of individual students

Grant Link: <http://www.afar.org/research/funding/mstar/>

Youth Service America and Sodexo Foundation Offer Grants for Youth-Led Hunger Service Projects

Youth Service America and the Sodexo Foundation are calling on young people to join the fight to end childhood hunger. Sodexo Foundation Youth Grants will provide \$500 for youth-led service projects designed to bring together young people, families, Sodexo employees, and other community members to address childhood hunger. Young people between the ages of 5 and 25 in the United States are eligible to apply. Projects will take place on or around Global Youth Service Day, April 26 to 28, 2013.

Deadline: January 31, 2013

Maximum Grant: \$500

Grant Link: <http://www.ysa.org/grants/sodexoyouth>

TD Bank and Arbor Day Foundation Announce Program to Support Urban Forestry Initiatives in Underserved Communities

TD Bank and the Arbor Day Foundation have announced the launch of TD Green Streets, a new grant program that will offer ten \$20,000 grants in support of innovative urban forestry initiatives in low- to moderate-income neighborhoods. Funding will support the purchase of trees, tree planting and maintenance, and educational activities. Up to 50 percent of the proposed funding can be used to purchase new trees. Grant applications will be reviewed according to a variety of criteria, including innovation, demonstrated understanding of the purpose of the program and in designing a program that promotes innovative, sustainable practices, and tools that benefit the community's urban forest management plan; partnership/community involvement, demonstrated ability to involve the community, nonprofit organizations, volunteers, corporate sector, etc., in the program; technical training/education, a commitment to the training and continuing education of community staff and volunteers through workshops, accreditation, conferences, etc.; a maintenance plan to ensure survivability of new trees; and a system in place to evaluate the success of the program. To be eligible for a TD Green Streets grant, qualified municipalities must be a current (2011 approved) Arbor Day Foundation Tree City USA-designated community within TD Bank's United States footprint. Proposed new trees must be planted in neighborhoods identified as low- to moderate-income. Municipalities are encouraged to apply in partnership with community partners such as nonprofit organizations, schools, businesses, etc.

Deadline: January 31, 2013

Maximum Grant: \$20,000 grant

Grant Link: <http://www.arborday.org/programs/tdgreenstreets/>

Nominations Invited for New Prize to Recognize Innovative Research in Multiple Sclerosis

The **National Multiple Sclerosis Society** is accepting nominations for a new \$100,000 annual cash prize recognizing scientists whose inventive work is propelling measurable progress in multiple sclerosis research. The Barancik Prize for Innovation in MS Research was established to recognize an exceptional scientist or team whose work in MS research has demonstrated outstanding innovation and originality. Any investigator(s) active in MS research is eligible for the prize. Nominee(s) may be from any institution or organization — public or private, government, as well as commercial entities. Nominees may also be at any stage of their professional career in MS research. There are no specific requirements for residency or citizenship. Nominees need not be current or past grantees of the National MS Society. Nominations must be submitted on behalf an individual, or team of individuals, by one or more colleagues or mentors. Self-nominations are not permitted. The first prize will be given in May 2013. A selection committee comprised of leaders in science, medicine, and MS advocacy will review nominees for their exceptional innovation and originality, impact, potential of the research to lead to pathways for treatment and cure for MS, and accomplishments in MS research that merit recognition and indicate future leadership in the field.

Deadline: January 31, 2013

Maximum Grant: \$100,000 annual cash prize

Grant Link: <http://www.nationalmssociety.org/ms-clinical-care-network/researchers/get-funding/barancik-prize-for-innovation-in-ms-research/index.aspx>

Simons Foundation Invites Applications for Collaboration Grants for Mathematicians

The goal of the program is to support the "mathematical marketplace" by substantially increasing collaborative contacts in the community of mathematicians working in the United States. The foundation will make a large number of grants to accomplished, active researchers who do not otherwise have access to substantial research funding that supports travel and visitors. The foundation anticipates one hundred and forty awards a year. To be eligible to apply, an individual must have a tenure-track or tenured position, or be a professor emeritus, at a United States institution of higher education; have a current record of active research and publication in high-quality journals; and not hold any other grants of over \$3,000 a year that allow for support for travel or visitors during the Collaboration Grant award period. There are no citizenship requirements. For-profit organizations may not apply.

Deadline: January 31, 2013

Maximum Grant: Collaboration Grants provide \$7,000 a year for a period of five years. The foundation will award \$5,000 a year for collaboration, travel, and research expenses, plus \$1,000 a year in discretionary funds for the awardee's department to enhance the research atmosphere within the department. The foundation will also pay \$1,000 a year in indirect costs to the awardee's institution

Grant Link: <http://simonsfoundation.org/funding/funding-opportunities/mathematics-physical-sciences/collaboration-grants-for-mathematicians/>

Applications Invited for Simons Foundation Award for Graduate Students in Theoretical Computer Science.

These awards will be made to graduate students with an outstanding track record of research accomplishments. Theoretical computer science is unique in that graduate students working independently produce some of the best results in the field. The Award for Graduate Students is designed to identify and support these students and enable them to pursue collaborations with peers and more senior researchers. To be eligible, the applicant must be a graduate student who has completed two, three, or four years at a United States or Canadian institution of higher education. A track record of outstanding results in theoretical computer science is the key criterion. There are no citizenship requirements. For-profit organizations may not apply. There is a limit of two applications per university. An awardee must be a graduate student for the duration of the award. Between ten and fifteen awards will be made annually.

Deadline: February 7, 2013

Maximum Grant: Awards provide up to \$24,000 a year for two years. Each award will provide up to \$8,500 a year for the awardee to use at his/her discretion (e.g., travel to summer research locations or to conferences, equipment, books, personal computer); up to \$9,000 a year for summer salary support; \$2,500 a year to help enhance the research atmosphere of the awardee's department; and \$4,000 to the institution for administrative expenses

Grant Link: <http://simonsfoundation.org/funding/funding-opportunities/mathematics-physical-sciences/simons-graduate-fellowships-in-theoretical-computer-science/>

Request for Proposals California Community Care Coordination Collaborative: A Learning Collaborative of Communities Building Systems of Care Coordination for Children with Special Health Care Needs

The Foundation seeks proposals from community-based, multi-agency coalitions in California with an interest in improving local systems of care coordination for CSHCN. Grantees will be required to participate in a multi-site learning collaborative with other community coalitions. The collaborative will provide a structured opportunity for funded coalitions to learn from one another, identify areas of shared need, discuss emerging challenges, and connect with others engaged in improving care coordination for CSHCN. An informational webinar for applicants will be held on January 10, 2013, at 1 p.m. PST to provide information on care coordination systems and the learning collaborative approach, and to answer questions from those preparing proposals. To join the online event, go to: <https://www1.gotomeeting.com/join/539646657>. To join the teleconference only, the dial-in number is 1-786-358-5418 and the access code is 539-646-657.

Contact information:

Foundation's Grants Manager- grants@lpfch.org.

Deadline: Friday, February 8, 2013; projects will begin April 1, 2013

Maximum Grant: Grants of up to \$40,000 for 18-month projects will be awarded

Grant Link: <http://www.lpfch.org/programs/cshcn/CACommunityCareCoordinationCollaborativeRFP.html>

ROBERT WOOD JOHNSON FOUNDATION

Grants are available for the following:

- Matching/challenge Funding
- Program Funding
- Program Evaluation
- Program Specific Funding/loans
- Research Funding
- Seed Funding
- Technical Support
- Fellowships

The foundation provides funding in the following areas:

- Health
- Reducing Tobacco Use
- Treatment For Alcohol & Illegal Drug Abuse
- Improving Public Health Systems
- Childhood Obesity
- Health Care Coverage
- Underserved & Vulnerable Populations
- Clinical Care Management
- Bedside Nursing & Care
- Nutrition Quality
- Health Care Research
- Children's Health
- Reducing Exposure to Violence
- Workforce Development & Diversity
- Technical Assistance
- Health Services Research
- Training & Fellowship Programs
- Policy Analysis
- Evaluation

Contact information:

Office of Proposal Management
P.O. Box 2316, Route 1 And College Road East
Princeton, New Jersey 08543-2316

THE CALIFORNIA ENDOWMENT

Grants are available for the following:

- Project Funds
- Capacity-building
- Core Operating Funds
- Building Funds
- Conferences & Seminars
- Matching Gifts
- Program Evaluation
- Technical Support
- Capital Funding
- Seed Funds
- General Operating Funds
- Partnerships

The foundation provides funding in the following areas:

- Healthcare
- Community-based Public Health
- Education & Training
- Workforce Diversity
- Healthy Communities
- Prevention
- Mental Health
- Children & Youth

Contact information:

1000 N Alameda Street

Los Angeles, California 90012

Tel: (800) 449-4149

FIELDSTONE FOUNDATION

Grants are available for the following:

- Matching Gifts
- Operating Funds
- Matching/challenge Funding
- Program Funding

The foundation provides funding in the following areas:

- Community Development
- Humanitarian Aid
- Education
- Arts & Culture
- Christian Churches & Organizations
- Children & Youth
- Family Services
- Child Abuse Prevention
- Domestic & Community Violence Prevention
- Child Care Services

The Fieldstone Foundation serves communities through two main programs or services:

1. Grants to nonprofit organizations serving the community.
2. Leadership development programs for nonprofit executives.

Contact information:

14 Corporate Plaza, Ste. 100

Newport Beach, California 92660

KRESGE FOUNDATION

Grants are available for the following:

- Operating Support
- Project Support
- Building Funds
- Capital Funding
- Matching Gifts
- Equipment
- Land Acquisition
- Matching/challenge Funding
- General Operation Support
- Planning Grants
- Program Support
- Program-investment Loan

The foundation provides funding in the following areas:

- Health
- Environment
- Arts & Culture
- Community Development
- Education
- Human Services

Kresge now requests a Letter of Intent (LOI) as the first step. The foundation will review these and then will decide whether to invite a full proposal.

Contact information:

3215 W Big Beaver Rd.
Troy , Michigan 48084
Tel: (248) 643-9630
Fax: (248) 643-0588
Email: info@kresge.org

Deadline: Applications and Letters of Inquiry are accepted on a rolling basis for almost all programs.

Please note: Applications for Arts and Culture: Arts and Community Building & Artists' Skills and Resources Programs are now closed

Maximum Grant: N/A

Grant Link: <http://www.kresge.org>

THE ANNENBERG FOUNDATION

Grants are available for the following:

- Program Funding
- Seed Funding
- Multimedia Education
- Challenge Grant
- Scholarship, Research
- Public Policy
- Capacity Building Initiatives
- General Operating Support

The foundation provides funding in the following areas:

- Higher & Public Education
- Youth Development
- Arts and Culture
- Humanities
- Civic Responsibility
- Community
- Health
- Human Services
- Animal Services
- Environment, Health Sciences
- Environment
- War Veterans

Please note: applications must be submitted no later than 45 days after the creation of an online grant application account.

FEDERAL FUNDING OPPORTUNITIES

ARTS AND CULTURE

NATIONAL ENDOWMENT FOR THE ARTS

Funding Opportunity Number: 2013NEA03LFCW

CFDA Number: 45.024 -- Promotion of the Arts_Grants to Organizations and Individuals

The Arts Endowment's support of a project may begin any time between January 1, 2014, and January 1, 2015, and extend for up to two years. The NEA Literature Fellowships program offers \$25,000 grants in prose (fiction and creative nonfiction) and poetry to published creative writers that enable recipients to set aside time for writing, research, travel, and general career advancement. Applications are reviewed through an anonymous process in which the only criteria for review are artistic excellence and artistic merit. To review the applications, the NEA assembles a different advisory panel every year, each diverse with regard to geography, race and ethnicity, and artistic points of view. The NEA Literature Fellowships program operates on a two-year cycle with fellowships in prose and poetry available in alternating years. For FY 2014, which is covered by these guidelines, fellowships in prose (fiction and creative nonfiction) are available. Fellowships in poetry will be offered in FY 2015 and

guidelines will be available in the fall of 2013. You may apply only once each year. Competition for fellowships is extremely rigorous. We typically receive more than 1,000 applications each year in this category and award fellowships to fewer than 5% of applicants. You should consider carefully whether your work will be competitive at the national level.

Deadline: February 28, 2013

Maximum Grant: \$25,000

NATIONAL ENDOWMENT FOR THE HUMANITIES

Funding Opportunity Number: 20130305-FS

CFDA Number: 45.163 -- Promotion of the Humanities_Professional Development

These grants support faculty development programs in the humanities for school teachers and for college and university teachers. NEH Summer Seminars and Institutes may be as short as two weeks or as long as five weeks.

NEH Summer Seminars and Institutes

- extend and deepen knowledge and understanding of the humanities by focusing on significant topics and texts • contribute to the intellectual vitality and professional development of participants
- build communities of inquiry and provide models of civility and excellent scholarship and teaching
- effectively link teaching and research in the humanities

An NEH Summer Seminar or Institute may be hosted by a college, university, learned society, center for advanced study, library or other repository, a cultural or professional organization, or a school or school system. The host site must be suitable for the project, providing facilities for scholarship and collegial interaction. These programs are designed for a national audience of teachers.

NATIONAL ENDOWMENT FOR THE HUMANITIES:

Landmarks of American History and Culture: Workshop for School Teachers

Funding Opportunity Number: 20130305-BH

CFDA Number: 45.163 -- Promotion of the Humanities_Professional Development

The Landmarks of American History and Culture program supports a series of one-week residence-based workshops for a national audience of K-12 educators. NEH Landmarks of American History and Culture Workshops use historic sites to address central themes and issues in American history, government, literature, art, music, and related subjects in the humanities. Each workshop is offered twice during the summer. Workshops accommodate forty school teachers (NEH Summer Scholars) at each one-week session. The goals of the workshops are to • increase knowledge and appreciation of subjects, ideas, and places significant to American history and culture through humanities reading and site study • build communities of inquiry and provide models of civility and of excellent scholarship and teaching • provide teachers with expertise in the use and interpretation of historical sites and of material and archival resources • encourage historical and cultural sites to develop greater capacity for professional development programs. NEH Landmarks Workshops are held at or near sites important to American history and culture (for example, presidential residences or libraries; colonial-era settlements; major battlefields; historic districts; parks and preserves; sites of key economic, social, political, and constitutional developments; and places associated with major writers, artists, and musicians). Applicants should make a compelling case for the historical significance of the site(s), the material resources available for use, and the ways in which the site(s) will enhance the workshop.

HEALTH AND HUMAN SERVICES**Small Health Care Provider Quality Improvement Grant Program**

Funding Opportunity Number: HRSA-13-159

CFDA Number: 93.912 -- Rural Health Care Services Outreach, Rural Health Network Development and Small Health Care Provider Quality Improvement

The purpose of the Small Health Care Provider Quality Improvement Grant (Rural Quality) Program is to provide support to rural primary care providers for implementation of quality improvement activities. Quality health care is the provision of appropriate services to individuals and populations that are consistent with current professional knowledge, in a technically competent manner, with good communication, shared decision-making and cultural sensitivity. The ultimate goal of the program is to promote the development of an evidence-based culture and delivery of coordinated care in the primary care setting. Eligible applicants must be rural public or rural nonprofit private entities that deliver health care services in rural areas. Examples of eligible organizations include Rural Health Clinics (RHC), Critical Access Hospitals

Deadline: January 30, 2013

Maximum Grant: \$150,000. Expected Number of Awards: 60
